[ABOUT]

There's so much on Social Media that draws us the wrong direction. But, did you know our Church leaders also use these vehicles to evangelize and educate.

Word on Fire is a series of YouTube videos designed to address current issues and popular topics. Bishop Robert Barron provides 8 to 12 minute insights on recent movies, statements made in the national media, court decisions, the intersection of science and religion, the basis for positions of the Catholic Church, and more.

Get started by searching [Best of Word on Fire](#) on YouTube and reviewing some of the topics.
