### [ABOUT]

You might be familiar with many of the stories in Genesis, but have you followed the story line?

The book of Genesis is the first book of the Old Testament. It moves from creation of the heavens and the earth to the early interactions of God with man, and God's pursuit of man through the people of Israel.

Stories of Adam and Eve, Noah and the Ark, the story of Abraham and the story of Joseph's transition from being sold into slavery in Egypt to being a high ranking official in the Egyptian empire are found in Genesis.

### [THE CHALLENGE]

Read the book of Genesis at your own pace over the next month or if you're not up for the whole book, read the story of Joseph (Genesis chapters 37-50).
