[ABOUT]

Maybe you've never understood the overall story of the bible and how all these books fit together.

The Quick Journey is a bible study that focuses on opening up a new understanding of the Bible. The goal is to understand how the books of the Bible fit together and to learn about the interaction of God with man. This eight week study involves a video and discussion and helps provide a way to get your feet wet and learn how to begin authentic Bible study.

This resource is available at Seton. You could sign up for an existing study or you could find a few other men who want to do this study with you or complete it on your own.

[THE CHALLENGE]

Sign up for one of the offerings of 'The Quick Journey' alone or with a few other men and complete the 8 week study program.
